BANANA FINGERLING

Banana Fingerling is an heirloom variety featuring smooth, light yellow skin and flesh. Known for its excellent flavor, it is a favorite among chefs and well regarded in the gourmet market. While it is susceptible to PVY, Banana Fingerling offers high resistance to common scab and produces a high tuber set.

PLANT

| | |
|------------------|-------------|
| Maturity | Late |
| Growth habit | Viney |
| Color of flower | White |
| Number of tubers | Mid to High |
| Dormancy | High |
