

# Dick Bedlington Farms

# RUBY RED

Ruby Red is a striking red-skinned potato with creamy white flesh. The tubers are medium to large in size and show exceptional resistance to many viruses and diseases. Highly adaptable, Ruby Red performs well under drought and heat stress while requiring minimal inputs, thanks to its strong, vigorous growth. One of its standout features is its rapid and durable skin set. Ruby Red maintains its excellent quality in storage, making it an ideal choice for both organic and commercial fresh produce markets.

## PLANT

Maturity	Medium early
Plant type	intermediate
Growth habit	Upright
Color of flower	Red-violet
Number of tubers	Medium, High
Dormancy	High

## TUBER CHARACTERISTICS

Tuber shape	Round oval
Flesh color	White
Eye depth	Shallow
Skin color	Red

## RESISTANCES

Leaf blight	High
Tuber blight	High
Rhizoctonia	High
Black leg	High
Common Scab	Medium
Internal rust spot	Very high
Second growth	Very high
Silver scurf	Medium, High
Bruising	High
PVY	High

## YIELD & QUALITY

Market outlet	Ware, Direct marketing, Pre-packaging
Yield	Very high
Share oversize	Medium
Share undersize	Low
